Muni reliability got worse in 2005. Will it reverse this trend in 2006?

Help us find out.

RESCUE MUNI, the San Francisco transit riders' association, is conducting its 10th annual **Muni Riders' Survey** throughout April 2006.

We will be measuring on time performance by a simple yardstick:

did you, the rider, wait too long?

To take part, simply fill out this form for the buses and streetcars you take **throughout April**. If you need more forms, just give us a call.

Questions?

Call **415 273 1558**

or see **www.rescuemuni.org**.
